LED Linear T5 Series

Our T5 Linear Tubes incorporate the latest advances in LED technology and are the perfect energy saving replacement for high output T5 fluorescent lamps. Our new line is attractively priced, long-lived and a substantially more environmentally friendly option for commercial lighting than traditional sources. All Topaz T5 27 watt lamps feature PET shatterproof coating to ensure occupant safety. T5s are ideal for spot replacement use when improving the overall lighting quality in an office or school and offer significant energy savings over fluorescents. Our frosted finish, glare free glass tubes are available in the most requested 4 foot length and feature an easy to install Mini Bi-Pin base and electronic ballast.

Solid State Lighting

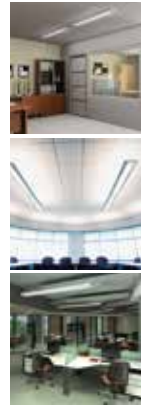

LED Linear T5 Series

Features

- Shatterproof PET coating to ensure occupant safety
- 27-watt, 4 foot length is ideal for use in spot replacements
- Reduce re-lamping—life rated for 50,000 hours
- Pleasing correlated color temperatures of 3500K (warm), 4000K (cool) and 5000K (daylight)
- 240° beam angle
- Frosted finish

Applications

- For improved commercial and industrial overhead lighting
- Recommended for use in classrooms, offices, conference rooms and hallways
- Four foot length is suitable for new construction as well as spot replacements
